Dear Ms. Wahlstrom,

I just want to write in opposition of allowing the proposed project initiated by Kampachi Farms, LLC from moving forward. It is my opinion that allowing aquaculture farming operations has potential to pollute the surrounding environment, dilute genetic pool of native and non-farm raised fishery stocks, while hurting the livelihood of professionals in the fisheries industry. Please consider denying the application for Kampachi to begin its newly proposed operation and allow more time for study.

Thanks you for your time,

Ex. 6 Personal Privacy (PP)
